Network of Education
on Sustainable Tourism

NETWORK EDUCATION SUSTAINABLE TOURISM

NEST - Network of Education on Sustainable Tourism is a project of capacity building by the Center for Advanced Studies on Tourism (CAST) of the University of Bologna in partnership with the University Center of Bertinoro (CeUB) and co-financed by the Italian Agency for Development Cooperation (AICS).

In accordance to the internally recognized Goals for Sustainable Development, the project aims to improve the skills in the field of sustainable tourism of the operators from partner countries engaged in the Italian Cooperation and to create an operational, open and dynamic network that will consolidate permanently over the next few years.
